Schedule

Start: 7:00am in Selina
Tamarindo
End: 6:00pm in Selina
Tamarindo

Llanos del Cortes Waterfalls

The Llanos del Cortes Waterfall is located near the town of Bagaces, just a half hour south of Liberia. It's a short drive off the Pan American Highway (Route 1) and less than a two-hour trip from Tamarindo. The falls are wide and wispy, with thin streams of water tumbling along the mossy rocks. Rocky cliffs are visible through the transparent cascade. To add to the grandeur, thick forest surrounds the falls with many birds and sometimes even monkeys bellowing from the trees.

Coffee and Chocolate Tour

Experience a sensational journey on our coffee and chocolate tour where you can explore a lush landscape of organic, locally grown ingredients! On this tour you will learn about the intricate process of how farmers grow and distribute these household staples. You will get to see first-hand Costa Rican cultural traditions, and most importantly, get to taste exquisite chocolate and coffee samples grown in Costa Rica.

Sloth Bears Tour

Costa Rica is home to a wide variety of animals due to its biodiverse landscape. Sloths are one of the most adorable natives to Costa Rica. There are an estimated 5 million sloths that can be found within its forests. Although, they may be hard to spot out in the wild to the untrained eye. On our Sloth Bears Tour, you will have the unique experience of seeing these slow-moving mammals up close, as well as a variety of frogs, snakes, toucans, monkeys, and more!

Visit to the Butterfly Garden

Butterflies are one of the most majestic creatures of Costa Rica. It is estimated that 1500 different species of butterfly live within the country. Costa Rica hosts 90% of all Central American butterfly species and 18 percent of the total earth's population. The majority of the butterflies you will see at the gardens are morpho butterflies! Enjoy a delicious lunch while admiring these beautiful creatures in their natural habitat, and experience the wonders of nature on our visit to the Butterfly Garden.
