# LIMA

# ITINERARY

## Dear MEDLIFERs,

Thank you for joining the MEDLIFE Movement via a Service Learning Trip with us! Here at MEDLIFE, our mission is to build a worldwide Movement empowering the poor in their fight for equal access to healthcare, education, and a safe home. As an SLT participant in Lima, Peru, you are joining that worldwide Movement!

The following is a sample travel plan for you to review. Please go over it before your trip and don't hesitate to reach out if you have any questions. Thank you for joining the Movement, and we can't wait to see you in Lima!

## Overview:

Lima is Peru's capital and a modern, sprawling city of 10 million inhabitants. MEDLIFE is headquartered in this diverse city, but for reasons beyond why a typical tourist might stop here. MEDLIFE's work in Lima focuses on the human settlements or "pueblos juvenes" in the outskirts of Lima, where almost 1 million people live in impoverished conditions. These communities consist of small shacks, often made of reed mats or plywood and built into the precarious rocky hillsides around Lima. Most of these communities lack access to basic services like running water and electricity.

On a Service Learning Trip in Lima, you will volunteer at one of our Mobile Clinics to bring free, high-quality healthcare directly to these underserved communities. You will also work on a Development Project like a staircase or retention wall to help make the community a safer place to live. Register today for a Service Learning Trip in Lima to join the Movement for a world free from the constraints of poverty!

## Highlights of the Week:

- Learn about the challenges faced by low-income communities on a Reality Tour
- Gain experience shadowing healthcare professionals at a Mobile Clinic
- Help bring safer homes to families with a Development Project
- Build bridges across cultures by connecting with community members

## Key Pillars

- **Service:** By volunteering on a Mobile Clinic and Development Project, you'll directly help bring accessible medical care, health education, and a safer home to the marginalized communities you visit.
- **Environment:** Service Learning Trips are created with sustainability in mind. In Lima, you may have the opportunity to volunteer on an environmentally friendly project such as a [public park](#) or [eco-bathroom](#).
- **Education:** Learn about the historical, political, and economic factors that have shaped the realities faced by families. Deepen your knowledge of global health by shadowing healthcare professionals.
- **Life-changing experiences:** Through eye-opening experiences and building human connections, a Service Learning Trip will renew your passion for building a world free from the constraints of poverty.

### Sunday

DAY

2

#### Walking Tour & Orientation

Sunday is an introduction to Lima for all volunteers with a walking tour of Miraflores led by your Trip Leader. In the afternoon, participants can enjoy some free time to explore the area. The evening will be dedicated to an orientation meeting where we will cover what to expect for the week and review safety precautions.

Meals are not provided today.

DAY

3

## Monday

### Reality Tour

After breakfast in the hostel, volunteers and Trip Leaders will depart for the Reality Tour for your first immersive experience in the urban settlements where MEDLIFE works.

Throughout the day, we will explore the harsh realities of living in these settlements and learn about how MEDLIFE works to bridge the gap between Peru's public health system and low-income families. We will also visit the Mini MED Center in the community of Union Santa Fe for a firsthand look into our COVID-19 relief projects, including the Community Soup Kitchen, bodega, bakery, and computer lab.

Return to the hostel and have some time to rest and relax before meeting in the conference room at 5pm for a presentation. We will discuss MEDLIFE's work and you will receive your Mobile Clinic station assignments for the week. Afterward, volunteers are free for the night.

DAY

4-7

## Tuesday to Friday

### Mobile Clinics & Development Project

Every day, Mobile Clinics bring healthcare to different communities. The journey to these communities can take anywhere from 30 minutes to 2 hours, depending on traffic.

When we arrive, volunteers unload medical supplies from the bus and meet the health professionals they'll be assisting. After a brief training session, the clinic opens its doors to patients between 8-9am.

Volunteers work until their lunch break around 11:30 am, then switch to their afternoon station. The clinics close between 1-3pm, depending on patient volume.

During the week, you may also contribute to community Development Projects, such as building staircases, public spaces, or roads, based on local needs.

In the evenings, we gather for interactive Post-Clinic Activities before dinner. On free days, volunteers are encouraged to explore the city.
